

# Broaden your perspective!

Welcome to your weekly winning resource all about the word broaden. We want to encourage you to be open to new ideas and broaden your perspective. Your perspective is the way you see something – your attitude towards an idea, or a point of view. We all have a perspective, which is a good thing. However, our perspective is limited to our understanding of things based on personal experiences. If you are going to achieve the goals and dreams that you desire, it is important to always strive to improve or broaden your perspective on these limited beliefs. Your scope of knowledge depends greatly on what you have been exposed to. So if you want to broaden your scope, you must be willing to challenge yourself to have different experiences and listen to others who may have different thoughts and ideas. Expand your territory to encompass more people, ideas, and things so that you can always be working towards broadening your perspective.

## Your Weekly Winning Article:

Although your perspective plays an important role in holding strong to your core values, it is important to recognize you also have some limited beliefs that are most likely holding you back. If you want to continue to grow and succeed, you must find a way to broaden your scope of perspective. In our article this week, we share 3 Key Action Steps you can take to broaden your perspective. ## **Your Weekly Winning Challenge:**

Apply the three action steps in the article to your personal situation.

1. Take an inventory of your environment and determine one thing that you need to change.
2. Make a point to seek out some greater wisdom. You can have a conversation with someone who may have a different perspective than you, read a book, or attend a training session.
3. Take time to notice when you are making an excuse. What do you need to take responsibility for?

Share how your perspective has broadened with your coach and write down your thoughts in your success workbook & journal.
