

# How Will you Thrive in the Coming Years?

This edition of your Weekly Winning Resources is all about the word brand. Your personal and/or business brand tells the story of who you are, how you behave, and why someone would be interested. Maybe you only think of companies when you hear the word brand, but you too are a brand whether you know it or not. What you wear, how you talk, and what you do is telling people who you are. In fact, every interaction in any form is branding you personally and professionally. Why is branding so important? Your brand expresses the value that you provide. Steve Jobs is famous for saying, "Your brand is the single most important investment you can make." At I've Decided, our purpose is to make sure you achieve your goals and dreams whatever they may be. We know that your brand, be it personal or business, will be a major factor in your success. Your success is our mission!
