Is there something in your life that you need to surrender? We don't want you to confuse surrender with giving up on your goals or quitting. It's not the same thing at all, not even close! To surrender simply means to give up what you think should be happening for what is actually happening. That's what we mean when we say, "Surrender to success". Sometimes, we have to let go of our desire to control an outcome and allow what is planned by design to happen. Our greatest success lies in this truth. Transformation happens on the other side of surrender. Additionally, to surrender to success means that you can relax and keep taking the next step towards your dream because you have the confidence and faith that eventually you will achieve the success you desire. Never give up on your hopes and dreams, but be willing to surrender your agenda and control. Trust God's plan.

## Your Weekly Winning Challenge:

Consider these questions and write your answers in your Success Workbook and Journal. What will happen if I let everything just be the way it is? If I don't do anything what is my actual experience in the present moment? What can I change? What is out of my control that I need to surrender?
